(For schools with total BSF of more than $10,000)

BETTER SCHOOLS AGREEMENT FOR 2016

Surrey Downs will receive $12,890

This funding is intended to contribute to:

- *Sky Rocket Reading Program - Literacy Support for students in Year 1 and 2 to explicitly teach reading and comprehension strategies.*

- *Identified students will participate in the program if they are below SEA benchmark for their year level. Year 1 students – RR Level 20. Year 2 students – RR Level 26.*

Our strategy will be to:

.. support all students in Year 1 and 2 who fall below the SEA benchmarks in Running Record Data. Only Wave 2 Learners are included as NEP students already receive targeted 1:1 support.

Sky Rocket Reading is an intensive intervention program where children receive individualised support 3 x weekly for sessions of 20 minutes duration. The trained SSO uses a variety of strategies (stretchy snake, chunky monkey etc) to encourage and develop student’s skills and confidence when problem solving and decoding texts.

Sunshine Online encompasses a wide range of text types that students experience as they work through the levels. At each stage assessments are analysed to give evidence of growth and areas to develop in future planning for individual students.

A description of the planning and monitoring associated with these strategies will be included in the 2016 School Annual Report.
